

Whitlock West development a lifestyle choice in the heart of Hudson

The much-anticipated Whitlock West development project is finally ready to go ahead with plans for a beautiful 49-home venture wrapped around the new addition to the Whitlock Golf and Country Club.

Set to celebrate its 100th anniversary in January 2012, with a newly refurbished club house, a new nine-hole course to augment its challenging 18-hole course, and with construction underway, come Spring there will be 20 new semi-detached, single dwelling cottages and bungalows tastefully set in harmony with nature and sports.

Developer and Whitlock West president Rene Schubert brings a wealth of experience to the project with a slew of residential and resort developments under his belt, projects that include five golf communities in Mont Tremblant.

“This is a project where homeowners have everything at their fingertips,” Schubert said. “Whitlock West is a lifestyle buy. We have taken great care to maintain the famous Hudson ambience in our design. The homes are strategically placed to embrace nature while

giving people their privacy.”

Bouré Therrien Architects are part of the Whitlock West team that has given great care to respect environmental issues in creating a project well tuned to the surrounding countryside. Buyers have the choice of six unique home models — three semi-detached cottages and bungalows along with three detached cottages and bungalows.

50% of homes have been pre-sold, and with a list of over 600 interested buyers, we urge you to act fast!

For early buyers, Whitlock West will cover the first year’s golf club initiation fee. And with the Whitlock Curling Club on site, the seasonal leisure choices make this an attractive package.
